## IMAGINE YOURSELF CLIMBING MOUNT EVEREST

A true story, warts and all, of what really happened to ad exec and amateur climber Kevin Flynn during his days at the top of the world. In this riveting, entertaining adventure, Flynn takes the reader along for the ride through each stage of his expedition, step by precarious step, from base camp to summit and back again.

In May 2004, Kevin Flynn reached the summit of Mt. Everest—but not without tears, laughter, failures, near-death experiences and great friendships. If you've ever wondered what it would be like for a mere mortal to attempt Mt. Everest, this book is as close as it gets.

**“I think people should climb for the fun of climbing. Flynn obviously loves the mountains and you'll have fun reading about his climbs.”**

*~ Ed Viesturs, first American to climb all fourteen 8,000 meter peaks*

**“A very personal and realistic account of failure and success on Everest. A must read for anyone who has ever thought about what it would be like to climb to the top of the world.”**

*~ Eric Simonson, world renowned climber and partner at International Mountain Guides*

**“I've climbed with Flynn on Everest and Elbrus and he understands that there's a lot more to mountaineering than just getting to the summit. I think this book will help the reader understand the joy and pain that accompanies every climber on a big mountain climb. Flynn gets it.”**

*~ Phil Ershler, world renowned climber and partner at International Mountain Guides*

***Grab this book and take the journey up Mount Everest. It's like being there yourself—without all that pesky danger.***

*Kevin Flynn is a partner at Martino Flynn, LLC—a full service advertising and public relations agency located in Upstate, NY. In his spare time, he enjoys flying his airplane and traveling with his wife, Maggie.*
